Art Unit: 3682

1. The Amendment after Final filed on March 11, 2005 has been entered.
2. Claims 1-3 are allowed.
3. The following is an examiner's statement of reasons for allowance: during the Appeal Conference on June 30, 2005, the majority of conferees agreed that Oury (US Des. 284,259) does not teach or suggest the limitations "said projections progressively decreasing in a base area and in height from adjacent the flange to adjacent the second end so as to provide an external taper to the body" in claim 1.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

4. The drawings were received on March 11, 2005. These drawings are unacceptable by the Examiner because, *inter alia*, (a) they introduce new matter as evidenced by the comparison of new drawings with original drawings as seen in the sheets attached to the Advisory action on March 31, 2005; and (b) Applicant's label "Replacement Sheet" for new Figs. 5 and 6 is unsupported by substantial evidence in the record. In fact, on the filing date of this application, Applicant merely shows Figs. 1-4. Therefore, new Figs. 5 and 6 do not replace any original figure. Applicant should have labeled as "New Sheet" as required under 37 CFR 1.121(d).

5. The *original* drawings are objected to because each part of the invention such as the base area in claim 1 should be designated by the referential numeral 28 as described in the amended specification on November 3, 2004.

Art Unit: 3682

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

6. This application is in condition for allowance except for the following formal matters: see the objection to the drawings above. Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213. A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vinh T. Luong whose telephone number is 571-272-7109. The examiner can normally be reached on Monday - Thursday.
